

Analytics & Reporting

Analytics to Fit your Business Needs

Data-driven decisions to manage your order-to-cash cycle.

Create custom reports on the fly using Cforia.autonomy's Analytics Dashboard. Eliminate the use for manual reporting in spreadsheets, and give your team insight into information such as daily collector activities, DSO, DBT, and other key metrics that drive your business.

KEY FEATURES

Customizable Reports

Using the data available across the Cforia.autonomy platform you can create custom reports on the metrics that matter most to your team and executives.

Out-of-the-Box Report Templates

Select from a variety of pre-packaged report templates delivered with Cforia.autonomy to help get you started. Via Cforia.connect view, download and use templates created by your career counterparts and industry peers.

Schedule and Email Reports and Dashboards

Share reports and dashboards with team members on any pre-defined schedule or as a one off. Export reports and dashboards as Excel or PDF files.

Parent/Child Reporting

Drill-down capabilities allows users to view data at the rolled up account (headquarters) level, with the ability to drill down to the underlying invoice record.

Cross-Platform Data Visualization

Reports pull and consolidate data across the complete Cforia End to End Order to Cash platform as well as data from your ERP(s) and other third party systems.

Powerful Dashboards

For monitoring and measuring all aspects of credit, receivables, collections, deductions, disputes and cash flow.

Speed and flow of information is critical for maintaining accountability and transparency. Cforia.autonomy's ability to display up-to-date data to our team throughout the day was critical to our success.
